M.COM. (ECONOMIC ADMINISTRATION AND FINANCIAL MANAGEMENT) -2018

DISTRIBUTION OF PAPERS

There will be 9 papers in all out of these 9 papers, 7 papers will be compulsory and 2 optional. A candidate will be required to offer four compulsory paper in previous and remaining three compulsory papers and two optional in the final examinations. Each paper will be of 100 marks and three hours duration. Dissertation in lieu of the paper can be offered at the final examinations provided that a candidate secures at list 55% marks in aggregate of the previous examinations.

M.Com. Previous

(Four papers – all compulsory)

Paper – I	Managerial Economics
Paper – II	Financial Management
Paper – III	Monetary Economics
Paper – IV	Business Environment

M.Com. Final

(Five papers – Three compulsory and any two papers of any one group given under)

Compulsory Paper:

Paper – V	Economic Growth and Development
Paper – VI	Public Finance & Policy
Paper – VII	International Trade and policy

Optional Papers (Any two papers of any one group)

Group – A Economic Administration

Paper – VIII	Rural Development
Paper – IX	Indian Economic Environment
Paper – X	Research Methodology and Quantitative Techniques(Common with all groups)
Paper – XI	Dissertation (Subject to the approval of the topic of survey work and a candidate being adjudged suitable for undertaking such work)

Group – B Finance

Paper – VIII	Financial Institutions and Markets
Paper – IX	Management of Financial Services
Paper – X	Research Methodology and Quantitative Techniques(Common with all groups)
Paper – XI	Dissertation (Subject to the approval of the topic of survey work and a candidate being adjudged suitable for undertaking such work)

Group – C International Business

Paper – VIII	International Business Environment
Paper – IX	International Finance
Paper – X	Research Methodology and Quantitative Techniques(Common with all groups)
Paper – XI	Dissertation (Subject to the approval of the topic of survey work and a candidate being adjudged suitable for undertaking such work).

Note : The topic of the dissertation will be of the same group which has been offered by the candidate.

M.Com. (Previous) -2019
ECONOMIC ADMINISTRATION & FINANCIAL MANAGEMENT
Paper – I Managerial Economics

Duration : 3 hours

Max. Marks – 100

Note :

The question paper will contain three sections as under –

Section-A : One compulsory question with 10 parts, having 2 parts from each unit, short answer in 20 words for each part. Total marks : 10

Section-B : 10 questions, 2 questions from each unit, 5 questions to be attempted, taking one from each unit, answer approximately in 250 words. Total marks : 50

Section-C : 04 questions (question may have sub division) covering all units but not more than one question from each unit, descriptive type, answer in about 500 words, 2 questions to be attempted. Total marks : 40

Unit - I

Nature and scope of Managerial Economics : Objectives of a firm, Economic theory and Managerial theory, Managerial Economist's role and responsibilities, Fundamental Economic Concepts - Incremental Principle, opportunity cost principle, Discounting Principle, Marginal and Equi-Marginal Principle.

Unit - II

Demand Analysis : Individual and market demand functions, law of demand, determinants of demand. Elasticity of demand, Price elasticity, Income elasticity, Cross elasticity, Advertisement elasticity and Substitution elasticity, uses of elasticity in managerial decisions.

Theory of Consumer Choice : Indifference curve approach, Revealed preference and theory of consumer choice under risk. Demand Forecasting - Demand estimation for major consumer durable and non-durable products, Demand forecasting techniques.

Unit - III

Production Theory: Production function, Production with one and two variable inputs, Stages of Production, Economies of Scale, Estimation of production function, Cost theory and estimation, Short and long run cost functions - their nature, Shape and inter-relationship, Law of variable proportions, Laws of returns to scale.

Unit - IV

Price Determination under different Market Conditions : Characteristics of different market structures, Price determination and firm's equilibrium in short run and long run under Perfect competition, Monopolistic competition, Monopoly and oligopoly.

Pricing Practices : Methods of price discrimination in practice, Pricing of multiple- products, Price discrimination, International price discrimination and dumping, Transfer pricing.

Unit - V

National Income Analysis : Definition, concepts, Measurement and relationship with Economic welfare.

Business Cycle : Nature and phases of a business cycle, Theories of business cycles and macro measures for controlling Business cycles.

Inflation : Definition, Characteristics and types, Inflation in terms of demand-pull and Cost -push factors, Effects of Inflation.

Compulsory Paper - II: Financial Management

Duration : 3 hours

Max. Marks – 100

Note :

The question paper will contain three sections as under –

Section-A : One compulsory question with 10 parts, having 2 parts from each unit, short answer in 20 words for each part. Total marks : 10

Section-B : 10 questions, 2 questions from each unit, 5 questions to be attempted, taking one from each unit, answer approximately in 250 words. Total marks : 50

Section-C : 04 questions (question may have sub division) covering all units but not more than one question from each unit, descriptive type, answer in about 500 words, 2 questions to be attempted. Total marks : 40

Unit - I

Financial Management : Meaning, nature and scope of finance, Financial goal - Profit Vs Wealth maximization, Finance Functions - Investment, financing and dividend decisions.

Operating and Financial Leverage : Measurement of Leverages, Effects of operating and financial leverage on profit, Analysing alternate financial plans, Combined financial and operating leverages.

Unit - II

Capital Budgeting : Nature of investment decisions, Investment Evaluation criteria - Net present value, Internal rate of return, Profitability index, Payback period, Accounting rate of return, NPV and IRR comparison, Capital rationing, Risk analysis in capital budgeting.

Unit - III

Cost of Capital: Meaning and significance of cost of capital, Calculation of cost of debt, preference capital, Equity capital and retained earnings, Combined cost of capital (weighted), Cost of equity and CAPM.

Capital Structure Theories: Traditional and M.M. hypothesis - without taxes and with taxes, Determining Capital Structure in practice.

Unit - IV

Management of Working Capital: Meaning, significance and types of working capital, Calculating operating cycle period and estimation of working capital requirements, Financing of working capital and norms of bank finance, Sources of working capital, Factoring services, Various Committee reports on bank finance, Dimensions of working capital management.

Management of cash, receivables and inventory.

Unit - V

Profit Planning: Profit objectives, Computation of income, Cost-volume profit analysis, Project planning, Feasibility assessment.

Dividend Policies : Issues in dividend decisions, Walter's model, Gordon's model, M-M hypothesis, Dividend and uncertainty, Relevance of dividend, Dividend policy in practice, Forms of dividends, Stability in dividend policy, Corporate dividend behavior.

Compulsory Paper - III: Monetary Economics

Duration : 3 hours

Max. Marks – 100

Note :

The question paper will contain three sections as under –

Section-A : One compulsory question with 10 parts, having 2 parts from each unit, short answer in 20 words for each part. Total marks : 10

Section-B : 10 questions, 2 questions from each unit, 5 questions to be attempted, taking one from each unit, answer approximately in 250 words. Total marks : 50

Section-C : 04 questions (question may have sub division) covering all units but not more than one question from each unit, descriptive type, answer in about 500 words, 2 questions to be attempted. Total marks : 40

Unit - I

Demand For and Supply of Money: Concept and Components of money, Functions of money, Demand for money and its different approaches, Supply of money and its determinants, Money Supply Autonomous expenditure, Monetary V/s Real liquidity.

Unit - II

Monetary Policy: Objects of monetary policy under static, cyclical and growth settings. Monetary equilibrium criteria - Rising prices, Stable prices and neutral money. Relationship between Monetary policy and Fiscal policy. Instruments and techniques of monetary control. Limitations of monetary policy.

Unit - III

Monetary Policy in India :Its institutional limitations in promoting Economic development. The concept of Controlled Expansion. Dichotomy in the Indian money market -links between organised and unorganised sectors, Relationship between money and Capital market in India. Inflation control in India - Demand pull and cost push inflation. Problems of Black Money and Demonetization. Digitization of Payments

Unit - IV

Theories of Income and Employment Determination :The classical and Keynesian approaches, Say's Law and its limitations. Consumption function, Investment function, marginal efficiency of capital, Investment and income multiplier and accelerator. Applicability of Keynesian theory in developing countries.

Monetary and real factors in interest rate determination, liquidity preference theory and loanable fund theory of interest. Modern theory of interest. Price, Wage, interest flexibility and full employment - the pigou effect. The multiplier Vs the velocity approaches to macro policy in income stabilization.

Unit - V

The problem of international liquidity and reform proposals. Special Drawing Rights (SDRs). International Monetary Fund - the status of gold. Monetarism vs Keynesianism. Laffer curve and Philip curve.
